

A very unconventional plant is presented here.  
The Swampy mimosy is a very rare breed and has an irrepressible urge to move.  
On the one hand it is shown in a hemisphere- pot, on the other hand,  
the plant run is presented in a very spezial root-free-jar.

Always well cared by a strange gardener( or is it the biggest garden gnome?),  
or a colourful butterfly (bad talking people call it a vermin!)

Never ending fun and slapstick.

**Walking act**  
about 30 Min.
